BRECKINRIDGE LONG DIDN'T ATTACK REED

SPOKE WITHOUT MENTIONING NAME OF SENATOR

WOULD FINANCE FARMER

Thinks Time Has Come When Special Steps Should Be Taken in the Matter

People who expected to hear Breckinridge Long, Democratic candidate for the United States senate, bemean his opponent, James A. Reed, were disappointed last night. Mr. Long went through his speech without mentioning the name of Mr. Reed. He confined himself mostly to accomplishments of the Democrat party, the fallacies of the Republian administration and the good in the ideas and principles of Woodrow Wilson. At times, however, Mr. Long made references to things done in the senate and it was plain that he was striking at Mr. Reed. At one time he quoted from a speech of Mr. Reed made at Marshall in 1910, in which Mr. Reed said that he had never attacked the Democratic party and that he was not an occasional Democrat. At one time Mr. Long mentioned the names of Lodge, Knox, Johnson and Penrose as opponents of Wilson and the harm that they had done, but he passed on without mentioning the name of Reed.

The court room was filled to overflowing and a number of people were turned away. Mr. Long has a good style of oratory and is a pleasing speaker. Several times during his speech he got hearty applause from his audience. One of the most liberal came when he said that Wilson was the one man in authority at the close of the war who had sense enough to ralize what a policy of isolation would mean for this nation.

Mr. Long brought out the fact that the export trade of the United States fell off $6,000,000,000 during the first twelve months of the Harding administration and said that it had continued to fall off every month since. We want the European nations to pay their war debts to us but it costs $61.80 to buy a bushel of wheat in Germany and other things from this nation sell in the same proportions. The European nations simply cannot buy from us at this rate. We have practically all the gold of the world. President Harding was one of the senators who opposed making the German indemnity at a figure that the Germans could meet, at the time Wilson wanted to do it, but now he is strong for it.

The higher the barrier we build in this nation against foreign trade and foreign goods the less the importation and the less money the European nations will have with which to pay their debts to us.

In referring to the farming industry of the nation Mr. Long said:

"The farming industry of the country has suffered very materially in the last two years. The people who live in the cities are beginning to realize that they are not a separate and distinct organization, and are beginning to appreciate that the farmers and manufacturers and business men are all necessary parts of our community. If one element suffers, the other elements naturally suffer. The serious conditions which have affected the farmer have served to bring to the attention of thoughtful persons the necessity of securing the welfare of the agricultural industry.

"I think the time has come when some special steps should be taken, further even than those which have been taken, to insure the financial stability and industrial independence of the farmer.

"So much am I convinced that I would be willing in the Senate to cooperate with members of both political parties in order to pass legislation which would secure to the farmers facilities for storing and marketing the produce of his labor and financing his operations. Legislation which would bring this result would react to the benefit of the whole country. It would have a direct effect upon the farmers and an indirect effect upon the laboring classes and persons in the cities engaged in business and manufacturing."

"If Thomas Jefferson had believed in the policy of isolation for this nation he would have built a wall along the top of the Allegheny mountains. No sir, Jefferson did not believe in any such policy."

"Our nation is like a store. We can

HAS TWENTY-EIGHT YEARS' SERVICE

GOFORTH BEGAN WORKING FOR BURLINGTON JUNE 21, 1894.

HERE IN JANUARY 1905

Maryville Agent Has Given Faithful Service to Corporation and Public.

W. E. Goforth, Burlington agent in Maryville, did his first day's work for his company 28 years ago today. His first job was at Parkville. Born on a farm near Barnard, Mr. Goforth moved with his parents to Bolckow when he was eight years old. At Bolckow he

W. E. GOFORTH.

received his public school training. He was ambitious to become a railroad man. When he was grown he began the study of telegraphy and in 1893 put in his application for a job. It was 1894, however, before he was taken on, owing to the fact that the company was turning off instead of hiring men at that time. When Mr. Goforth did get a place he was placed at Parkville as an extra. Mr. Goforth says that he will never forget that first day he worked.

In July, 1895, he was placed at Hopkins, where he was assistant agent under A. C. Kennedy. In 1898 he was transferred to the agnecy at Nodaway, Mo., remaining there only until October when he was appointed assistant operator at Maryville under J. C. Johnson. In 1901 he was appointed agent at Westboro, from which place after two years he was sent to Fairfax. In January of 1905 he was transferred to Maryville, obtaining the position without a pull and over a number of applicants who were older in point of service.

During his seventeen years services in Maryville Mr. Goforth has been one of the most faithful of men in serving the public and in serving the corporation for which he works. It is said that to him more than to any one person is due the credit for the nice, neat station which greets people when they arrive in Maryville on the Burlington.

Mr. Goforth has not only been a faithful servant in his work and business but has been a power for good in his community along the line of church activities and fraternal organizations. He is an officer in the First Christian Church and belongs to several lodges. He was 49 years old last January.

THE CLODHOPPER PLEASED AUDIENCE

ALL BUT ONE OF CAST FROM THE THOMPSON FAMILY

PARTS PLAYED WELL

House Kept in Uproar Good Part of Time by Comedy Regarding Wedding "Tower"

The personnel of the St. Mary's Wonder Why Dramatic Club was made known last night when that organization made its first appearance in "A Little Clodhopper," a three-act comedy of American life, given to a well-filled house at St. Mary's Parish Hall.

The cast of characters were made up entirely from the family of N. B. Thompson, with the exceptions of the part of Charmian Carter, an actress, which was played by Miss Margaret Sturm. Mr. Thompson himself played the part of Ocey Gumps, a country Gauk. Juddy Elliotte, A Little Clodhopper, was played by Miss Edna Thompson; Mrs. Chiggerson-Boggs by Laura Thompson; Miss Juilette Bean by Mary Thompson; Septimus Green, a book agent by George F. Thompson and Georgia Chiggerson, a sissy boy, by Joseph Thompson.

The play was well presented to an appreciative audience. The characters were uniformly good and each one interpreted the part he was playing with a freedom and naturalness which is pleasing to an audience.

Judy, who, as Ocey Gumps said, was at the bottom of everything even the well at one time, was easily at home either running loose in the wilds of the country as an escape from the poor farm or in the luxury of Mrs. Chiggerson-Bogg's city home. She finally fell for the line of Septimus Green, who had mastered the art of salesmanship as applied to selling books but stuttered profusely when he tried to sell his heart to Judy.

True to the country life which is always depicted in plays of American life, Ocey Gumps won the heart of Miss Juilette Bean, the landlady, and the couple kept the audience in an uproar with the happenings of their wedding "tower" to the city.

Mrs. Chiggerson-Boggs was defeated in her attempt to pass Charmain Carter, who succeeded in stealing Georgia, the sissy son of Mrs. Chiggerson-Boggs, for the wealthy heiress.

Specialities were given between acts by Mrs. Albert Butherus and A. B. Thomas. Music was furnished by Miss Hilda Lahr, Ralph Yehle, Paul Basford and William Gaugh.

OUT-OF-DOOR RUN OF FARM FILMS

250 PERSONS SAW THEM AT BRETHREN'S CHURCH

NEW PICTURES SHOWN

People of Community Are Repairing Church Despite the Fact That Is Is a Busy Season

The first out-of-door showing of the Nodaway County agriculture films was held at the Brethren's Church, four and a half miles southeast of Gaynor, last night with an audience of approximately 250. C. P. Dowis was in charge of the program which was opened by the audience singing "America" after which prayer was offered by the Rev. L. A. Walker. Talks were made by Roy A. Kinnaird, county farm agent, and George A. Pickens.

Mr. Pickens explained the pictures. Music was furnished by Ed Schumacher and O. K. Bovard on string instruments. Refreshments consisting of ice cream and cake were served.

Part of the new films which have been added to the Nodaway county agriculture films recently were shown last night but not all of the new pictures. There are many that are not ready yet.

The people of the community have taken up a collection and are remodeling the church. The basement is being rebuilt with new Sunday school rooms being partitioned off and a cement floor being made. The improvement on the church is being done by voluntary work on the part of the men of the community. Yesterday ten men worked on the building, despite the busy season for the farmers. The room in the basement of the church will be used for community gatherings.

WATER IN FOUR WELLS FOUND TO BE UNSAFE

Dr. Fryer Will Send More Samples Soon —List of Persons Waiting to Have Tests Made.

Returns from the tests on samples of water taken from ten wells in Maryville, made by the State Health Department, have been received by Dr. Claude P. Fryer, county health officer and show that water in four of the ten wells is unsafe for use. Other wells show that they need cleaning out, protection from surface drainage and addition of unslacked lime to make the water safe.

The handle has been removed from the well at the Elks Club. Its absence is explained by Dr. Fryer who ordered it taken off until the water in the well is clean. He said that the well needs some protection from surface drainage and the addition of unslacked lime. As soon as this is done the handle will be put back on the pump. Owners of other wells which show they need attention have been notified of the necessary steps to be taken to put them in the proper condition.

Dr. Fryer is well pleased with the interest and cooperation which the people of the town have taken in the water situation and the means to keep it in the best possible condition. He has a waiting list of people who want their water tested and will send some more samples next week. He will have some more containers soon he thinks.

NO MORE 60 HOUR DIPLOMAS AT S. T. C.

ARE TO BE CALLED 60-HOUR CERTIFICATES.

ONE 30-HOUR RENEWAL

After Being Renewed Once the Teacher Must Do Fifteen More Hours' Work.

President Uel W. Lamkin and Dean George H. Colbert of the State Teachers College returned last night from Kansas City where they attended yesterday a meeting at the Hotel Baltimore of the presidents and deans of the state teachers colleges of Missouri.

Two things of importance were done at yesterdays meeting. The first was the changing of the nomenclature of the diplomas for the sixty hour course. From now on it will be the sixty-hour certificate and a diploma will be given only for the 120 hour course.

The other thing of importance was that beginning with Sept. 1, 1923, all of the state teachers colleges of Missouri will renew the thirty-hour certificate but once. After it has been renewed once it will be necessary for the student to take fifteen more hours of work before he can teach again.

There were two meetings. In the morning the guests met with the president of the University of Missouri and in the afternoon the regular meeting was held. At this time the report of the visiting committee was heard.

The visiting committee is composed of J. H. Coursault, dean of the school of education, University of Missouri, A. S. Boucher, of the state department of public schools and of teacher training, and of one of the deans of a teachers college. This year Dean Colbert of the local Teachers College was the third member of the committee. It was the duty of the committee to visit all of the state educational institutions and report on them.

Chicago, June 21—The Railroad Labor Board is prepared fully to back the wage order reduction and use every effort to prevent the railroad strike, it was indicated today, following Chairman Hooper's reply to the Union leaders. His reply declared that the strike would entail disaster. Statements made by union leaders were characterized as "inexcusable perversions, both in language and meaning" toward the board's wage cut decision.

N. Sisson Receives Gold-Headed Cane of Former Governor A. P. Morehouse

N. Sisson has received the gold headed cane of former Governor A. P. Morehouse, which was presented to him by the senators and clerical force of the Thirty-fourth General Assembly of the State of Missouri, and will display the cane in the window of the Kuchs Bros. jewelry store. The cane was sent to him by Mrs. Nannie M. Neale of Chetopa, Kan., daughter of Governor Morehouse and the only surviving member of the family.

The engraving on the cane reads: Governor A. P. Morehouse, from the senators, officers and clerical force of the senate of the 34th General Assembly of Missouri."

Mrs. Nannie M. Neale in her letter to Mr. Sisson says: "I am sending you by express my father's cane. I've been wanting to send you this for some time but simply neglected it. I only wish you had been using it all these years. There is no one I would rather have this cane than you and I hope you will use it.

"Mrs. Shoemaker wrote me that you and she were talking of me presenting it to Maryville as the foundation of a museum or something of the kind.

"I am coming to Maryville in the fall; we can then talk of how it shall be disposed of finally."

Mr. Morehouse established the second paper in Maryville. It was called the Gazette and was established in 1866. In 1869 Ex-Governor Morehouse founded the Nodaway Democrat which later combined with the Forum to make the present Democrat-Forum. The founder of the Democrat was elected lieutenant-governor of Missouri in 1884 and upon the death of Governor John S. Marmaduke in 1887 succeded him to the highest office of the state. He died in Maryville Sept. 25, 1901.

BRECKENRIDGE LONG DIDN'T ATTACK REED

(Continued from page 1)

not afford to sell only to ourselves and our empioyes, but we must sell to those on the outside. The three-power treaty was proposed by England, France and the United States, to make arrangements for reconstruction. All accepted provided the United States would agree. However, the constitutional body of the United States opposed it and said it was against the principles of America, and that it was contrary to history. Then with the new administration in they proposed a four-power treaty, which is composed of the very same nations and does the same things, except that where the latter concerns the peaceful Pacific the former would have disarmed a camp of war.

"Oh inconsistency and insincerity, thy name is Lodge."

Mr. Long spoke of the new proposed tariff bill and its effect on foreign trade.

"There is now proposed a tariff law with a schedule so high that no trade can be continued with it. This can not be. There should be arranged a scientific schedule so as to permit the shipment of goods from and to America."

"I want to say one word about the greatest Democrat who recently left the White House, a man who meant so much to the party and the principles, founded by Jefferson and brought to higher interpretation; a man who interpreted the feelings of mankind and who was at the head of the United States during the greatest period in the history of the world; one who after the war entered into the work of reconstruction and of peace; a wounded soldier of peace. The tallest monument in the world has been erected to Washington—the broadest monument in the world has been erected in honor of Lincoln, so a monument of greater heighth and broader width will be erected to Woodrow Wilson."

George Robb Ellison was chairmaa at the meeting and L. C. Cook introduced Mr. Long. Mr. Cook said that there are two Democratic candidates for nomination for the senate. One of them has betrayed the trust that the party has put in him and has given things for the Republicans to fight the Democrats throughout the country with. The other is an honorable and an esteemed gentleman, Breckinridge Long.

Notes

Breckinridge Long was entertained at dinner at the Bainum hotel last evening after his arrival in Maryville. Mr. Long after the dinner made a few remarks about trying to get out the vote at the primary election. During the dinner music was furnished by the DeMolay's orchestra. Those attending the dinner were: J. C. Pistole, John Aley, Irvin Hanna, Clyde Melvin, Walter Pistole, S. E. Brown of Hopkins, A. H. King of Pickering, Jay Mutz and Alva Heflin southwest of Maryville, C. F. Sisson of Parnell; H. R. Perry and A. G. Castillo of Elmo, Mr. and Mrs. Lowell Campbell and Mrs. Ernest Nelson of Barnard, Mr. and Mrs. W. S. Linville of Skidmore, Mr .and Mrs. Arthur Thompson of Guilford and Mr. and Mrs. J. J. Heifner, Mr. and Mrs. W. A. Burris, Mr. and Mrs. Dan R. Baker, Rev. and Mrs. R. E. Snodgrass, Mr. and Mrs. Ellis G. Cook, Mr. and Mrs. M. A. Peery, Mrs. James B. Robinson, Mrs. I. E. Tulloch, Mrs. R E. Thomas, George Robb Ellison, S. G. Gillam, the Rev. J. E. Conder, A. L. Nash, Prosecuting Attorney Charles F. McCaffrey, George Meek, George Pat Wright, James Todd.

Mr. Long, accompanied by D. R. Baker, J. J. Heifner, George Robb Ellison, James Todd and Richard Baker, visited Barnard this morning. A short band concert was given and Mr. Long made a few minutes' talk there on a dray wagon. From Barnard the party went to Guilford, where Mr. Long was taken around the stores of the town.

Expressions from Democrats at both Barnard and Guilford were that Mr. Long was very strong. At Guilford, it was said they knew of only two Reed men in that community.

From Guilford the party went to Conception and visited Father Placidus. Father Placidus said that community contained a number of Reed voters. After a several minutes visit there, Mr. Long and party went to Conception Junction. Mr. Long was taken to the railroad shops at the Junction and met a number of people.

A delegation of Democrats from Stanberry headed by Jack Stapleton, editor of the Owl-Headlight of that town, and W. H. McCarty and others met Mr. Long at Conception Junction and took him to Stanberry, where he was to give a short address this afternoon. Mr. Long is to speak in Albany tonight.

Two newspaper correspondents, Asa Hutson of the St. Louis Globe-Democrat, and T. R. Alford of the Kansas City Star, accompanied Mr. Long on his tour to this county. Both of these correspondents were of the opinion Long would be nominated if there was a strong rural vote cast at the primary. Both of these men represent Republican papers and are Republicans. They also tried to find out who the Republicans stood for for Senator. Several Republicans expressed it that R. R. Brewster of Kansas City would carry this county. Mr. Hutson was also of the opinion Brewster would win the Republican nomination.

On his trip yesterday afternoon in this county, Mr. Long visited at Graham and at Skidmore. At Graham he was taken around that town by John M. Wilson. On his way to Skidmore Mr. Long visited Tom Groves. At Skidmore, Everett Linville took Mr. Long around to meet the Democrats. W. R. Linville, who has been a resident of the Skidmore community for seventy-four years, said he didn't know of a Reed vote in that community. Mr. Long called on Ed Duval, who has been laid up at his home on account of an infected foot.

At Bolckow yesterday afternoon one Democrat told Mr. Long he would not vote for Jim Reed this fall if Reed was nominated. Mr. Long told this Democrat not to talk that way as after the primary the party should support its nominee.

In all of his speeches Mr. Long doesn't refer to Senator Reed by name. His only reference to Senator Reed at his meeting in Maryville was "I am not an occasional Democrat." Senator Reed has been very bitter in his speeches against Mr. Long.

Mr. Long is very confident he will be nominated. He is wanting to make his vote as strong as possible.

Not even USCO ever touched this value before

30 x 3½ - $10.90

WHEN you look at a 30 x 3½ USCO at $10.90 think back for a minute as far as you can remember USCO.

The truth is that men have *always* found USCO an outstanding money's worth no matter what its price.

Today at $10.90 USCO maintains its established standard of quality.

And because of the new price, it sets a *new index of tire value.*

* * *

Men who have used USCO have never been inclined to measure its value by the general run of tires.

Since last fall when USCO established the $10.90 price range they have recognized it as a value beyond *any possible comparison.*

A still greater money's worth than even USCO itself had reached before.

THIRTY-FOUR CHILDREN AT PICKERING CLINIC YESTERDAY

Twelve of This Number Had Enlarged Tonsils and Seven Had Decayed Teeth

Thirty-four children and thirteen mothers attended the health clinic held at Pickering yesterday by the county health officers. There were twenty school children, eight babies and six free school children. The examinations of the children by the officers showed the following results; enlarged tonsils 12, decayed teeth 7, defective vision 6, defective hearing 2, and under weight 8. Two of the children had recently had their tonsils removed.

The health offices are at Conception Junction today to conduct a clinic. They will be at Guilford tomorrow and will hold the clinic in the rooms of the Bank of Guilford.

Dr. Claude P. Fryer, county health officer, was unusually well pleased with the clinic at Pickering yesterday. He said that it showed that the people were coming to realize the value of prevention of diseases.

Three operations were made at the hospital as a direct outcome of the health clinics. One was from Clearmont and two were from Ravenwood. Those from Ravenwood had attended the clinic June 6 and wasted no time in carrying out the recommendations of the county health officers.

The dotors of the county are cooperating more with the health officers too. Inquiry came into the health office today from Graham asking when the next clinic will be held at that place. According to the schedule the next one will be held in Graham on July 10. Attendance at this place was small during the last clinic but indications are that a larger number will attend on July 10.

GRADER AND DRAG BUSY ON MARYVILLE STREETS

There Are Miles of Dirt Ways Which Must Be Gone Over After Each Rain

The city officials are making every effort this year to give Maryville the best of dirt streets possible. Most of the streets have been gone over by the light grader and the motor drag that the city has. It is the plan of the city to get over the streets just as soon as possible after the rains.

It may not appear to the casual observer that it would be much of a job to get over all the streets in a town the size of Maryville. But when he stops to think or when he starts to go over a few of them he will realize what a big task it really is. There are miles and miles of dirt streets.

In addition to the work that is being done along the line of grading and dragging the city has a mower busy getting the weeds out of the streets.

SPEAKER AT EMPIRE TO TELL MILLENNIUM HAS ARRIVED

Began With World War in 1914 and Christ Will Probably Reveal Himself About 1925.

"Millions are Living Now Who Will Never Die." On this book, written by Judge Rutherford, a lecture will be given at 3 o'clock Sunday afternoon at the Empire Theatre by Dr. M. E. Riemer of St. Joseph.

It is the belief of Judge Rutherford and Dr. Reimer that the millennium is here. It began in 1914 with the beginning of the World War. Jesus Christ is now on earth and is passing back and forth among us in an invisible form. The Scriptures say that some day the people of the earth will be destroyed by fire. The fire that is to consume is a condition of strife among the people. This condition began with the war and is continuing in the various strife that is going on in the nations today. A day with God may be 1,000 years for humans.

It is held, however, that the day may not be longer than eleven years and that Jesus will appear to us about 1925.

The lecture is to be free and no collection will be taken. The public is invited.

Children's Day Sunday

The children's day program, which was prepared to be given at the Brethrens Church last Sunday but which was postponed because of the rain, will be given next Sunday.

A number of local athletes have received entry blanks for the First Annual Track and Field Meet to be put on at St. Joseph by the Chamber of Commerce July 4.

Especially fine trophies have been ordered for high point winners in the three divisions of the senior class. The big Chamber of Commerce trophy will be given to the high point man in the open events. The modified marathon, over a distance of less than six miles, has been given special consideration by the trophy committee and three cups and two medals will be awarded in this event. The cups are especially large and the medals are attractive.

The meet is strictly amateur and will be governed by A. A. U. rules. A list of the best officials in the district will officiate. Entry blanks and information can be received from the St. Joseph Chamber of Commerce. Entries close June 30.

President Lamkin Secured License for Entertainers

President Uel W. Lamkin of the State Teachers College is a personal friend of Jess Coffer and Martha Miller of the Coffer-Miller players who are to give four classic comedies at the State Teachers College Friday and Saturday of this week and Monday of next week.

In fact he is a very personal friend of both of them. To be exact he was the man who purchased their marriage licence.

This is how it happened. In 1915 Mr. Lamkin was lecturing on the chautauqua platform. It so happened that on the day he spoke Mr. Coffer and Miss Miller gave the prelude to the address. Then there was a Chinese minister by the name of Ng Poon Chew who was also on the program.

The day before the chautauqua season closed all four of these above mentioned persons were slated to appear on the platform in Centralia.

Some time that day Mr. Coffer came to Mr. Lamkin and some time later Mr. Lamkin obtained the license some time still later Mr. Coffer and Miss Miller were quietly married by Ng Poon Chew in the chautauqua tent.

Mr. Lamkin recommends the Coffer-Miller players very highly and considers the College fortunate in securing them for an engagement in Maryville.

BRECKINRIDGE LONG DIDN'T ATTACK REED

SPOKE WITHOUT MENTIONING NAME OF SENATOR

WOULD FINANCE FARMER

Thinks Time Has Come When Special Steps Should Be Taken in the Matter

People who expected to hear Breckinridge Long, Democratic candidate for the United States senate, bemean his opponent, James A. Reed, were disappointed last night. Mr. Long went through his speech without mentioning the name of Mr. Reed. He confined himself mostly to accomplishments of the Democrat party, the fallacies of the Republian administration and the good in the ideas and principles of Woodrow Wilson. At times, however, Mr. Long made references to things done in the senate and it was plain that he was striking at Mr. Reed. At one time he quoted from a speech of Mr. Reed made at Marshall in 1910, in which Mr. Reed said that he had never attacked the Democratic party and that he was not an occasional Democrat. At one time Mr. Long mentioned the names of Lodge, Knox, Johnson and Penrose as opponents of Wilson and the harm that they had done, but he passed on without mentioning the name of Reed.

The court room was filled to overflowing and a number of people were turned away. Mr. Long has a good style of oratory and is a pleasing speaker. Several times during his speech he got hearty applause from his audience. One of the most liberal came when he said that Wilson was the one man in authority at the close of the war who had sense enough to ralize what a policy of isolation would mean for this nation.

Mr. Long brought out the fact that the export trade of the United States fell off $6,000,000,000 during the first twelve months of the Harding administration and said that it had continued to fall off every month since. We want the European nations to pay their war debts to us but it costs $61.80 to buy a bushel of wheat in Germany and other things from this nation sell in the same proportions. The European nations simply cannot buy from us at this rate. We have practically all the gold of the world. President Harding was one of the senators who opposed making the German indemnity at a figure that the Germans could meet, at the time Wilson wanted to do it, but now he is strong for it.

The higher the barrier we build in this nation against foreign trade and foreign goods the less the importation and the less money the European nations will have with which to pay their debts to us.

In referring to the farming industry of the nation Mr. Long said:

"The farming industry of the country has suffered very materially in the last two years. The people who live in the cities are beginning to realize that they are not a separate and distinct organization, and are beginning to appreciate that the farmers and manufacturers and business men are all necessary parts of our community. If one element suffers, the other elements naturally suffer. The serious conditions which have affected the farmer have served to bring to the attention of thoughtful persons the necessity of securing the welfare of the agricultural industry.

"I think the time has come when some special steps should be taken, further even than those which have been taken, to insure the financial stability and industrial independence of the farmer.

"So much am I convinced that I would be willing in the Senate to cooperate with members of both political parties in order to pass legislation which would secure to the farmers facilities for storing and marketing the produce of his labor and financing his operations. Legislation which would bring this result would react to the benefit of the whole country. It would have a direct effect upon the farmers and an indirect effect upon the laboring classes and persons in the cities engaged in business and manufacturing."

"If Thomas Jefferson had believed in the policy of isolation for this nation he would have built a wall along the top of the Allegheny mountains. No sir, Jefferson did not believe in any such policy."

"Our nation is like a store. We can

HAS TWENTY-EIGHT YEARS' SERVICE

GOFORTH BEGAN WORKING FOR BURLINGTON JUNE 21, 1894.

HERE IN JANUARY 1905

Maryville Agent Has Given Faithful Service to Corporation and Public.

W. E. Goforth, Burlington agent in Maryville, did his first day's work for his company 28 years ago today. His first job was at Parkville. Born on a farm near Barnard, Mr. Goforth moved with his parents to Bolckow when he was eight years old. At Bolckow he

W. E. GOFORTH.

received his public school training. He was ambitious to become a railroad man. When he was grown he began the study of telegraphy and in 1893 put in his application for a job. It was 1894, however, before he was taken on, owing to the fact that the company was turning off instead of hiring men at that time. When Mr. Goforth did get a place he was placed at Parkville as an extra. Mr. Goforth says that he will never forget that first day he worked.

In July, 1895, he was placed at Hopkins, where he was assistant agent under A. C. Kennedy. In 1898 he was transferred to the agnecy at Nodaway, Mo., remaining there only until October when he was appointed assistant operator at Maryville under J. C. Johnson. In 1901 he was appointed agent at Westboro, from which place after two years he was sent to Fairfax. In January of 1905 he was transferred to Maryville, obtaining the position without a pull and over a number of applicants who were older in point of service.

During his seventeen years services in Maryville Mr. Goforth has been one of the most faithful of men in serving the public and in serving the corporation for which he works. It is said that to him more than to any one person is due the credit for the nice, neat station which greets people when they arrive in Maryville on the Burlington.

Mr. Goforth has not only been a faithful servant in his work and business but has been a power for good in his community along the line of church activities and fraternal organizations. He is an officer in the First Christian Church and belongs to several lodges. He was 49 years old last January.

THE CLODHOPPER PLEASED AUDIENCE

ALL BUT ONE OF CAST FROM THE THOMPSON FAMILY

PARTS PLAYED WELL

House Kept in Uproar Good Part of Time by Comedy Regarding Wedding "Tower"

The personnel of the St. Mary's Wonder Why Dramatic Club was made known last night when that organization made its first appearance in "A Little Clodhopper," a three-act comedy of American life, given to a well-filled house at St. Mary's Parish Hall.

The cast of characters were made up entirely from the family of N. B. Thompson, with the exceptions of the part of Charmian Carter, an actress, which was played by Miss Margaret Sturm. Mr. Thompson himself played the part of Ocey Gumps, a country Gauk. Juddy Elliotte, A Little Clodhopper, was played by Miss Edna Thompson; Mrs. Chiggerson-Boggs by Laura Thompson; Miss Juillette Bean by Mary Thompson; Septimus Green, a book agent by George F. Thompson and Georgia Chiggerson, a sissy boy, by Joseph Thompson.

The play was well presented to an appreciative audience. The characters were uniformly good and each one interpreted the part he was playing with a freedom and naturalness which is pleasing to an audience.

Judy, who, as Ocey Gumps said, was at the bottom of everything even the well at one time, was easily at home either running loose in the wilds of the country as an escape from the poor farm or in the luxury of Mrs. Chiggerson-Bogg's city home. She finally fell for the line of Septimus Green, who had mastered the art of salesmanship as applied to selling books but stuttered profusely when he tried to sell his heart to Judy.

True to the country life which is always depicted in plays of American life, Ocey Gumps won the heart of Miss Juilette Bean, the landlady, and the couple kept the audience in an uproar with the happenings of their wedding "tower" to the city.

Mrs. Chiggerson-Boggs was defeated in her attempt to pass Charmain Carter, who succeeded in stealing Georgia, the sissy son of Mrs. Chiggerson-Boggs, for the wealthy heiress.

Specialities were given between acts by Mrs. Albert Butherus and A. B. Thomas. Music was furnished by Miss Hilda Lahr, Ralph Yehle, Paul Basford and William Gaugh.

OUT-OF-DOOR RUN OF FARM FILMS

250 PERSONS SAW THEM AT BRETHREN'S CHURCH

NEW PICTURES SHOWN

People of Community Are Repairing Church Despite the Fact That Is Is a Busy Season

The first out-of-door showing of the Nodaway County agriculture films was held at the Brethren's Church, four and a half miles southeast of Gaynor, last night with an audience of approximately 250. C. P. Dowis was in charge of the program which was opened by the audience singing "America" after which prayer was offered by the Rev. L. A. Walker. Talks were made by Roy A. Kinnaird, county farm agent, and George A. Pickens.

Mr. Pickens explained the pictures. Music was furnished by Ed Schumacher and O. K. Bovard on string instruments. Refreshments consisting of ice cream and cake were served.

Part of the new films which have been added to the Nodaway county agriculture films recently were shown last night but not all of the new pictures. There are many that are not ready yet.

The people of the community have taken up a collection and are remodeling the church. The basement is being rebuilt with new Sunday school rooms being partitioned off and a cement floor being made. The improvement on the church is being done by voluntary work on the part of the men of the community. Yesterday ten men worked on the building, despite the busy season for the farmers. The room in the basement of the church will be used for community gatherings.

WATER IN FOUR WELLS FOUND TO BE UNSAFE

Dr. Fryer Will Send More Samples Soon —List of Persons Waiting to Have Tests Made.

Returns from the tests on samples of water taken from ten wells in Maryville, made by the State Health Department, have been received by Dr. Claude P. Fryer, county health officer and show that water in four of the ten wells is unsafe for use. Other wells show that they need cleaning out, protection from surface drainage and addition of unslacked lime to make the water safe.

The handle has been removed from the well at the Elks Club. Its absence is explained by Dr. Fryer who ordered it taken off until the water in the well is clean. He said that the well needs some protection from surface drainage and the addition of unslacked lime. As soon as this is done the handle will be put back on the pump. Owners of other wells which show they need attention have been notified of the necessary steps to be taken to put them in the proper condition.

Dr. Fryer is well pleased with the interest and cooperation which the people of the town have taken in the water situation and the means to keep it in the best possible condition. He has a waiting list of people who want their water tested and will send some more samples next week. He will have some more containers soon he thinks.

NO MORE 60 HOUR DIPLOMAS AT S. T. C.

ARE TO BE CALLED 60-HOUR CERTIFICATES.

ONE 30-HOUR RENEWAL

After Being Renewed Once the Teacher Must Do Fifteen More Hours' Work.

President Uel W. Lamkin and Dean George H. Colbert of the State Teachers College returned last night from Kansas City where they attended yesterday a meeting at the Hotel Baltimore of the presidents and deans of the state teachers colleges of Missouri.

Two things of importance were done at yesterdays meeting. The first was the changing of the nomenclature of the diplomas for the sixty hour course. From now on it will be the sixty-hour certificate and a diploma will be given only for the 120 hour course.

The other thing of importance was that beginning with Sept. 1, 1923, all of the state teachers colleges of Missouri will renew the thirty-hour certificate but once. After it has been renewed once it will be necessary for the student to take fifteen more hours of work before he can teach again.

There were two meetings. In the morning the guests met with the president of the University of Missouri and in the afternoon the regular meeting was held. At this time the report of the visiting committee was heard.

The visiting committee is composed of J. H. Coursault, dean of the school of education, University of Missouri, A. S. Boucher, of the state department of public schools and of teacher training, and of one of the deans of a teachers college. This year Dean Colbert of the local Teachers College was the third member of the committee. It was the duty of the committee to visit all of the state educational institutions and report on them.

Chicago, June 21—The Railroad Labor Board is prepared fully to back the wage order reduction and use every effort to prevent the railroad strike, it was indicated today, following Chairman Hooper's reply to the Union leaders. Statements made by union leaders were characterized as "inexcusable perversions, both in language and meaning" toward the board's wage cut decision.

N. Sisson Receives Gold-Headed Cane of Former Governor A. P. Morehouse

N. Sisson has received the gold headed cane of former Governor A. P. Morehouse, which was presented to him by the senators and clerical force of the Thirty-fourth General Assembly of the State of Missouri, and will display the cane in the window of the Kuchs Bros. jewelry store. The cane was sent to him by Mrs. Nannie M. Neale of Chetopa, Kan., daughter of Governor Morehouse and the only surviving member of the family.

The engraving on the cane reads: Governor A. P. Morehouse, from the senators, officers and clerical force of the senate of the 34th General Assembly of Missouri."

Mrs. Nannie M. Neale in her letter to Mr. Sisson says: "I am sending you by express my father's cane. I've been wanting to send you this for some time but simply neglected it. I only wish you had been using it all these years. There is no one I would rather have this cane than you and I hope you will use it.

"Mrs. Shoemaker wrote me that you and she were talking of me presenting it to Maryville as the foundation of a museum or something of the kind.

"I am coming to Maryville in the fall; we can then talk of how it shall be disposed of finally."

Mr. Morehouse established the second paper in Maryville. It was called the Gazette and was established in 1866. In 1869 Ex-Governor Morehouse founded the Nodaway Democrat which later combined with the Forum to make the present Democrat-Forum. The founder of the Democrat was elected lieutenant-governor of Missouri in 1884 and upon the death of Governor John S. Marmaduke in 1887 succeded him to the highest office of the state. He died in Maryville Sept. 25, 1901.

It certainly is too bad
That our ancestors did
Not live long enough to
See how swift we are.

The fellow who bored us to death last winter by asking "Is it cold enough for you?" now is asking "Is it warm enough for you?"

We see that suspenders are supposed to be coming back. We venture to remark that there is about as much chance of the average man going back to them as there is of the woman going back to the corset.

In these days of short skirts it looks like a lot of the family skeletons are out on the street insted of being in the closet.

The court house cynic, says no man whose favorite candidate won at the primary is opposed to them.

Let two total strangers meet before a window in which fishing supplies are displayed and soon they will be discussing the merits of the various kinds of flies and lines like old friends. Verily angling makes the whole world kin.

The observer of the passerby in Maryville told us the other day that as far as he could see the reason some women are opposed to others wearing knickers is because they can't wear them themselves and get away with it.

Uncle Abner says a lot of men would pass for wise individuals if they only kept silent.

It certainly is amusing to watch a little man rattle around in a big job.

Heroic Measures usually are many sizes too large for the average man.

Maryville autoists are starting cuts on their summer detours.

An aspiring young Maryville writer sent a story to a magazine and it was promptly returned. "That is too bad" we said in a sympathetic manner. "That is what the editor said," he replied.

Louise, the stenographer, says there is no worse habit than the habit of forming bad habits.

A lot of men are going back to the old fashioned night shirt since pajamas are always getting mixed up in first page scandals.

Vagrant Musings.

To some people anything which is necessary is right.

Spite never won a victory.

You can't coast on the road to success.

The fellow who goes himself gets there while while the fellow who sends some one else gives up his chance.

The funny thing about income is that it never stays in.

It is pretty safe to say that nobody ever did the best he was capable of.

The Road to Yesterday.

Who of us can't remember the political parades of yesterday when many a dignified citizen of Maryville wore an oil cloth hat and cape and carried a dripping kerosene torch.

BRECKENRIDGE LONG DIDN'T ATTACK REED

(Continued from page 1)

not afford to sell only to ourselves and our employes, but we must sell to those on the outside. The three-power treaty was proposed by England, France and the United States, to make arrangements for reconstruction. All accepted provided the United States would agree. However, the constitutional body of the United States opposed it and said it was against the principles of America, and that it was contrary to history. Then with the new administration in they proposed a four-power treaty, which is composed of the very same nations and does the same things, except that where the latter concerns the peaceful Pacific the former would have disarmed a camp of war.

"Oh inconsistency and insincerity, thy name is Lodge."

Mr. Long spoke of the new proposed tariff bill and its effect on foreign trade.

"There is now proposed a tariff law with a schedule so high that no trade can be continued with it. This can not be. There should be arranged a scientific schedule so as to permit the shipment of goods from and to America."

"I want to say one word about the greatest Democrat who recently left the White House, a man who meant so much to the party and the principles, founded by Jefferson and brought to higher interpretation; a man who interpreted the feelings of mankind and who was at the head of the United States during the greatest period in the history of the world; one who after the war entered into the work of reconstruction and of peace; a wounded soldier of peace. The tallest monument in the world has been erected to Washington—the broadest monument in the world has been erected in honor of Lincoln, so a monument of greater heighth and broader width will be erected to Woodrow Wilson."

George Robb Ellison was chairmaa at the meeting and L. C. Cook introduced Mr. Long. Mr. Cook said that there are two Democratic candidates for nomination for the senate. One of them has betrayed the trust that the party has put in him and has given things for the Republicans to fight the Democrats throughout the country with. The other is an honorable and an esteemed gentleman, Breckinridge Long.

Notes

Breckinridge Long was entertained at dinner at the Bainum hotel last evening after his arrival in Maryville. Mr. Long after the dinner made a few remarks about trying to get out the vote at the primary election. During the dinner music was furnished by the DeMolay's orchestra. Those attending the dinner were: J. C. Pistole, John Aley, Irvin Hanna, Clyde Melvin, Walter Pistole, S. E. Brown of Hopkins, A. H. King of Pickering, Jay Mutz and Alva Heflin southwest of Maryville, C. F. Sisson of Parnell; H. R. Perry and A. G. Castillo of Elmo, Mr. and Mrs. Lowell Campbell and Mrs. Ernest Nelson of Barnard, Mr. and Mrs. W. S. Linville of Skidmore, Mr and Mrs. Arthur Thompson of Guilford and Mr. and Mrs. J. J. Heifner, Mr. and Mrs. W. A. Burris, Mr. and Mrs. Dan R. Baker, Rev. and Mrs. R. E. Snodgrass, Mr. and Mrs. Ellis G. Cook, Mr. and Mrs. M. A. Peery, Mrs. James B. Robinson, Mrs. I. E. Tulloch, Mrs. R E. Thomas, George Robb Ellison, S. G. Gillam, the Rev. J. E. Conder, A. L. Nash, Prosecuting Attorney Charles F. McCaffrey, George Meek, George Pat Wright, James Todd.

Mr. Long, accompanied by D. R. Baker, J. J. Heifner, George Robb Ellison, James Todd and Richard Baker, visited Barnard this morning. A short band concert was given and Mr. Long made a few minutes' talk there on a dray wagon. From Barnard the party went to Guilford, where Mr. Long was taken around the stores of the town.

Expressions from Democrats at both Barnard and Guilford were that Mr. Long was very strong. At Guilford, it was said they knew of only two Reed men in that community.

From Guilford the party went to Conception and visited Father Placidus. Father Placidus said that community contained a number of Reed voters. After a several minutes visit there, Mr. Long and party went to Conception Junction. Mr. Long was taken to the railroad shops at the Junction and met a number of people.

A delegation of Democrats from Stanberry headed by Jack Stapleton, editor of the Owl-Headlight of that town, and W. H. McCarty and others met Mr. Long at Conception Junction and took him to Stanberry, where he was to give a short address this afternoon. Mr. Long is to speak in Albany tonight.

Two newspaper correspondents, Asa Hutson of the St. Louis Globe-Democrat, and T. R. Alford of the Kansas City Star, accompanied Mr. Long on his tour to this county. Both of these correspondents were of the opinion Long would be nominated if there was a strong rural vote cast at the primary. Both of these men represent Republican papers and are Republicans. They also tried to find out who the Republicans stood for for Senator. Several Republicans expressed it that R. R. Brewster of Kansas City would carry this county. Mr. Hutson was also of the opinion Brewster would win the Republican nomination.

On his trip yesterday afternoon in this county, Mr. Long visited at Graham and at Skidmore. At Graham he was taken around that town by John M. Wilson. On his way to Skidmore Mr. Long visited Tom Groves. At Skidmore, Everett Linville took Mr. Long around to meet the Democrats. W. R. Linville, who has been a resident of the Skidmore community for seventy-four years, said he didn't know of a Reed vote in that community. Mr. Long called on Ed Duval, who has been laid up at his home on account of an infected foot.

At Bolckow yesterday afternoon, one Democrat told Mr. Long he would not vote for Jim Reed this fall if Reed was nominated. Mr. Long told this Democrat not to talk that way as after the primary the party should support its nominee.

In all of his speeches Mr. Long doesn't refer to Senator Reed by name. His only reference to Senator Reed at his meeting in Maryville was "I am not an occasional Democrat." Senator Reed has been very bitter in his speeches against Mr. Long.

Mr. Long is very confident he will be nominated. He is wanting to make his vote as strong as possible.

DEMOCRATIC WOMEN TO HOLD ANOTHER MEETING SOON

Plan Is to Have an Organization Which Will Stimulate Interest and Give Instruction

Another meeting of the Democratic Women of Maryville will be held some time soon for the purpose of making the organization a permanent one, it was decided yesterday afternoon at the meeting held at the court house. Mrs. J. D. Richey was made temporary chairman and will preside at the next meeting. Mrs. J. B. Robinson presided at the meeting yesterday afternoon.

The purpose of organizing the club, as set forth by prominent Democratic women today, is that of interesting the women in political affairs and instructing them regarding voting. It it not for any candidate. The women feel that many of their number are in need of information regarding voting and that an organization should be made, wherein they can get all this information.

30 x 3½ - $10.90

WHEN you look at a 30 x 3½ USCO at $10.90 think back for a minute as far as you can remember USCO.

The truth is that men have *always* found USCO an outstanding money's worth no matter what its price.

Today at $10.90 USCO maintains its established standard of quality.

And because of the new price, it sets a *new index of tire value.*

* * *

Men who have used USCO have never been inclined to measure its value by the general run of tires.

Since last fall when USCO established the $10.90 price range they have recognized it as a value beyond *any possible comparison.*

A still greater money's worth than even USCO itself had reached before.

THIRTY-FOUR CHILDREN AT PICKERING CLINIC YESTERDAY

Twelve of This Number Had Enlarged Tonsils and Seven Had Decayed Teeth

Thirty-four children and thirteen mothers attended the health clinic held at Pickering yesterday by the county health officers. There were twenty school children, eight babies and six free school children. The examinations of the children by the officers showed the following results; enlarged tonsils 12, decayed teeth 7, defective vision 6, defective hearing 2, and under weight 8. Two of the children had recently had their tonsils removed.

The health offices are at Conception Junction today to conduct a clinic. They will be at Guilford tomorrow and will hold the clinic in the rooms of the Bank of Guilford.

Dr. Claude P. Fryer, county health officer, was unusually well pleased with the clinic at Pickering yesterday. He said that it showed that the people were coming to realize the value of prevention of diseases.

Three operations were made at the hospital as a direct outcome of the health clinics. One was from Clearmont and two were from Ravenwood. Those from Ravenwood had attended the clinic June 6 and wasted no time in carrying out the recommendations of the county health officers.

The dotors of the county are cooperating more with the health officers too. Inquiry came into the health office today from Graham asking when the next clinic will be held at that place. According to the schedule the next one will be held in Graham on July 10. Attendance at this place was small during the last clinic but indications are that a larger number will attend on July 10.

GRADER AND DRAG BUSY ON MARYVILLE STREETS

There Are Miles of Dirt Ways Which Must Be Gone Over After Each Rain

The city officials are making every effort this year to give Maryville the best of dirt streets possible. Most of the streets have been gone over by the light grader and the motor drag that the city has. It is the plan of the city to get over the streets just as soon as possible after the rains.

It may not appear to the casual observer that it would be much of a job to get over all the streets in a town the size of Maryville. But when he stops to think or when he starts to go over a few of them he will realize what a big task it really is. There are miles and miles of dirt streets.

In addition to the work that is being done along the line of grading and dragging the city has a mower busy getting the weeds out of the streets.

SPEAKER AT EMPIRE TO TELL MILLENNIUM HAS ARRIVED

Began With World War in 1914 and Christ Will Probably Reveal Himself About 1925.

"Millions are Living Now Who Will Never Die." On this book, written by Judge Rutherford, a lecture will be given at 3 o'clock Sunday afternoon at the Empire Theatre by Dr. M. E. Riemer of St. Joseph.

It is the belief of Judge Rutherford and Dr. Reimer that the millennium is here. It began in 1914 with the beginning of the World War. Jesus Christ is now on earth and is passing back and forth among us in an invisible form. The Scriptures say that some day the people of the earth will be destroyed by fire. The fire that is to consume is a condition of strife among the people. This condition began with the war and is continuing in the various strife that is going on in the nations today. A day with God may be 1,000 years for humans.

It is held, however, that the day may not be longer than eleven years and that Jesus will appear to us about 1925.

The lecture is to be free and no collection will be taken. The public is invited.

President Lamkin Secured License for Entertainers

President Uel W. Lamkin of the State Teachers College is a personal friend of Jess Coffer and Martha Miller of the Coffer-Miller players who are to give four classic comedies at the State Teachers College Friday and Saturday of this week and Monday of next week.

In fact he is a very personal friend of both of them. To be exact he was the man who purchased their marriage licence.

This is how it happened. In 1915 Mr. Lamkin was lecturing on the chautauqua platform. It so happened that on the day he spoke Mr. Coffer and Miss Miller gave the prelude to the address. Then there was a Chinese minister by the name of Ng Poon Chew who was also on the program.

The day before the chautauqua season closed all four of these above mentioned persons were slated to appear on the platform in Centralia.

Some time that day Mr. Coffer came to Mr. Lamkin and some time later Mr. Lamkin obtained the license some time still later Mr. Coffer and Miss Miller were quietly married by Ng Poon Chew in the chautauqua tent.

Mr. Lamkin recommends the Coffer-Miller players very highly and considers the College fortunate in securing them for an engagement in Maryville.
